

FOC-MPO MPO/MTP Pen Type Cleaner

Grandway provides high quality MPO/MTP Pen Type Cleaner for MT optical ferrules.

As a high precision opponents, even a little contaminants on the optical ferrule can affect the performance of the whole optical transmission system. If a optical ferrule is polluted, it is hard to make it clean again in ordinary ways for the high requirements of the cleaning equipment and the little space the ferrule left for cleaning.

With Pen Type Cleaner, all the problem can be solved easily.

The cleaner is composed with special cleaning reel and guide cap of specified size. These make the cleaner meet rigorous requirements of the cleaning solution.

The Pen Type Cleaner is absolutely your good partner in optical cleaning solution.

Features:

1. One-push operation with no special skills required
2. Compact design with workability in mind
3. Suitable for both male (ferrule) and female (adapter) connectors

Specifications:

Model	FOC-MPO	
Compatible Connectors	MPO connector	MTP connector
Compatible End Face	Flat and 8 degree slant (compatible with or without guide pins)	
Size (mm)	Main Body: 197L×15W×51H With Cap Attached: 208L×17W×51H	

Cleaning Cycles	Over 600 cycles
